

## Resources for Regulators Live

### Free Seminar

**Tools to deliver better regulation for protection and growth**  
**6<sup>th</sup> March 2012, 9:30am to approx. 3.30pm, Jurys Inn, Birmingham**

#### **Event Information: Updated 23/01/12**

You are invited to a seminar to learn face-to-face how you can use LBRO's range of resources to drive better regulatory delivery.

As LBRO prepares to be reconfigured as the new streamlined body BRDO (Better Regulation Delivery Office) we are taking stock of our progress towards prosperity and protection.

We want to share the resources we have developed with our stakeholders so far to ensure they are widely available to all those working to deliver better outcomes.

Following our partnership Year Ahead event with TSI and CIEH, helping to shape the regulatory agenda, LBRO is bringing to life the popular Resources for Regulators section of its website through a free seminar for practitioners and training providers.

Local and national regulators can learn about support for targeted, outcomes-focused better regulation delivery and hear from LBRO experts about how these resources can be used in service planning and delivery.

*Delegates can choose to attend three of the following workshops:*

#### **1: Leadership Development for Better Regulation/Understanding Regulatory Culture**

Hear about how LBRO's resources can be used to develop leadership competencies for regulation, as well as to better understand current regulatory challenges and to interact more effectively with local businesses. The session will introduce workshop resources that will get you thinking about your regulatory brand and action-planning.

#### **2: Outcomes and Impacts**

The Priority Regulatory Outcomes were launched last year, setting out a new approach to prioritising national outcomes that are delivered locally. Learn about resources which support local regulators to prioritise their activity against national outcomes, focus where resources could be allocated and measure progress towards meeting outcomes that matter.

#### **3: Primary Authority**

Learn about our resources that will help you to establish your local authority as a provider of Primary Authority services, and to maximise the benefits that your partnerships deliver to business, regulators, and citizens.

#### **4: Common Approach to Competency**

An overview of the new common approach to competency, what it involves, how to use it, and the implications for officers and managers.

All participants will also have an opportunity to hear about **Trading Places** and other LBRO resources. See the Resources for Regulators Live agenda for more details.

To reserve your place at this seminar, please email your three workshop choices to [enquiries@lbpro.org.uk](mailto:enquiries@lbpro.org.uk)
